

## GENERAL INFORMATION

### *Summer courses for 11- to 15-year-olds*

Make use of the summer holidays to learn a language and improve school results, make new friends, visit a place, do activities in the language you are learning... What an extraordinary experience!

Have fun while constantly practising the language through role plays, conversations, and presentations between students and native-language trainers.

With two weeks of classes, children gain confidence and oral fluency in simple or more elaborate conversations, depending on their level.
